## Summary

I am a purpose driven Web Designer with over 3 years of experience in creating and adding beautiful designs to a webpage, through a combination of my aesthetic prowess and programming skill. A good team player, pays attention to details, good time manager, open to better ideas, always willing to learn and improve, works well without supervision, and likes to think outside the box.

When am not coding am either surfing the internet, working out or playing chess.

My primary work tools at the moment include; HTML 5, CSS3, SASS, JavaScript, GitHub

## Experience

### Web Designer

Nolimits Skills

Feb 2019 - Present (3 years 10 months +)

- \* Responsible for creating beautiful designs, updating and overall maintenance of the client's website
- \* Contributing to a revenue rise by up to 10%, through going outside the box to satisfy client's needs, which gave rise to more referrals, jobs and business growth.
- \* Delivering work that is 'on brand' and within guidelines
- \* Perform web design in technologies such as HTML5, CSS3, SASS
- \* Reviews website templates and refines designs and works with other team members to prototype and preview layouts and website features.
- \* Adding media queries and fluid measurements to CSS codes to ensure page responsiveness across different devices
- \* Ensuring that codes are cross browser compatible
- \* Ensuring that the webpage is accessible and adaptable to a very wide variety of people especially people with certain disabilities.
